MY VOICE VIBRATION RESEARCH FORUM (MVVRF)

Project Invitiative Proposal Application for Funding

myvoice.ebrahma.me

Dear Client,

This is Suvendu Sekhar Mohapatra, the founder at "My Voice Vibration Research Forum", as well as this project's lead. Although I introduce my self with these roles, there are many hats I wear while working at "My Voice Vibration Research Forum".

I know it sounds like a cliché to say we are on a mission to make a better world - a story that you have no doubt heard a few times before, but trust us, "My Voice Vibration Research Forum" and all its stakeholders believe in this mission. We might not have the funding of Government or any private organizations till now, but at our level, we are nonetheless committed to doing our best.

The reason why I started "My Voice Vibration Research Forum" was because I sensed a need for development in areas of problems listening forcefully without wish “Noises, Sounds & Voices (Visible / Invisible)” for covering of demographic all countries, when (Information why did I take on the problem, what the knowledge gap was, what motivated me to begin etc. are written below in detail vision/mission statements/Goals/Objectives/MOA etc.).

While "My Voice Vibration Research Forum" team has undertaken many tasks over the years to address this issue, this particular one lies particularly close to our hearts because (write what makes this project special from the rest of the work you have done).

We believe this project has the potential to reach over all people of whole world, affecting lives, and positively impacting individuals of whole world, And this is just the beginning, as these projects not only hold true for areas of scientific research, innovation & social welfare - we expect to benefit, at all people of all countries, when we first roll out this initiative of direct communication to all citizens in country INDIA.

If you had like to see any further information about this project, please let me know and I will be happy to present you with any and all necessary details. In the meantime, please feel free to go through our proposal. If you have any questions, I am available at suvendu@ebrahma.me (email) and mobile/WhatsApp +91-760655921.

Best regards,

**Suvendu Sekhar Mohapatra

MEMORANDUM OF ASSOCIATION

Of MY VOICE VIBRATION RESEARCH FORUM

Paragraph 1

This NGO is a charitable organization is for social welfare, science, research, spreading of awareness, technicality and innovation.

All forms of noises, sounds and voices (visible or invisible) are one of proven potential factors, for damage of human body and head.

MEMORANDUM OF ASSOCIATION

Of MY VOICE VIBRATION RESEARCH FORUM

Particularly, inner mind implications are harmful, to all citizens, unknowingly.

Nevertheless, it is one of the neglected areas, of our social livings, our societies, our communities, our social communities, private sectors and governmental supports.

Lack of knowledge about dangerous impacts.

MEMORANDUM OF ASSOCIATION

Of MY VOICE VIBRATION RESEARCH FORUM

Paragraph 2

Unknowingly destroying our social life, loss of peace of mind, internal injury to inner mind, several types of disturbances in day-to-day life (personal or professional), by losing freedom due to forcefully without wish bound to listen noises, sounds and voices (visible or invisible).

MEMORANDUM OF ASSOCIATION

Of MY VOICE VIBRATION RESEARCH FORUM

Endangering very existence of very high vibrations, frequencies, signal strengths moving and penetrating through body and brain mapping, but not visible to our naked eyes.

Continuingly violation of basic human rights.

Even citizens are not able to ask, or not able to stop, unnecessary things.

MEMORANDUM OF ASSOCIATION

Of MY VOICE VIBRATION RESEARCH FORUM

Paragraph 3

Adverse effects are straightly inner body and brain.

A coordinated effort required at international and national level, to synergize efforts of institutes, organizations, scientific research labs of individuals, concerned citizens, private sectors, governments.

MEMORANDUM OF ASSOCIATION

Of MY VOICE VIBRATION RESEARCH FORUM

For protection, it will work as a coordinating agency and do advocacy with a peaceful manner.

Also promoting research activities on impacts, and solutions to stop dangerous activities, with practical knowledge and technicality, behind those dangerous sources, listening through both ears, head and inside head.

MEMORANDUM OF ASSOCIATION

Of MY VOICE VIBRATION RESEARCH FORUM

Paragraph 4

Since thirteen years, raising awareness by creating, collecting and disseminating as well as trying for establishing networks, among natural, professional, doctors, engineers, legislative, bureaucrats, politicians, journalists, social workers, organizations, other countries.

MEMORANDUM OF ASSOCIATION
Of MY VOICE VIBRATION RESEARCH FORUM

To protect our planet earth, and world peoples.

The concept of the transcendent, and immanent ultimate reality, supreme cosmic spirit.

We the people of INDIA, requires to preserve, our freedom, right and safety.

THE PROJECT INITIATIVE PROPOSAL APPLICATION

for Funding has five sections

- I. Background and justification of the project
- II. Objectives of the project
- III. Expected results of the project
- IV. Project implementation and management
- V. Project Budget

SECTION I

Background and Justification of the project

- a. The problem or critical issue which the proposal seeks to resolve
- b. How the proposal relates to other relevant national development strategies and policies
- c. Whether there are other programmes and activities which will complement the proposal
- d. How the need for the project was determined
How intended beneficiaries were involved in project identification and planning

If a non-governmental organization has prepared the proposal, it is important to describe how concerned Governmental officials were made aware of and/or were involved in project formulation.

Finally, the section should describe the relevant experience and capabilities of the project Implementing Agent, and the type and level of resources that the Implementing Agent will provide for

Under Construction

SECTION II

Objectives of the project

A. Development Objectives

B. Immediate Objectives

Under Construction

SECTION II

Objectives of the project

A. Development Objectives

This section should describe the way in project objectives are addressed in national development strategies and policies, in terms of specific programmes and how the proposed project will relate to these strategies and policies.

The discussion should indicate the specific national social and economic objectives to which the proposal, if successful, is expected to contribute, and how this is expected to contribute to improved well being and livelihood of the project beneficiaries and the larger community.

Under Construction

SECTION II

Objectives of the project

B. Immediate Objectives

This section should describe what the project is expected to achieve in terms of effects among intended beneficiaries. Specifically, the section discusses what changes are expected to occur among intended beneficiaries if project operations are successful. Changes can include new and improved technical skills and knowledge, increased income-generating capacities, and greater public awareness at the community, national, regional or international levels.

The section should also discuss whether project operations will be extended to other locations, as well as whether the experience can be applied to other sectors.

Under Construction

SECTION III

Expected results of the project

- A. Expected project Results**
- B. Project activities and work plan**
- C. Project beneficiaries**
- D. Implementing agent management of project**

Under Construction

SECTION III

Expected results of the project

A. Expected project Results

This section should describe the overall results that the project is expected to accomplish and whether there may be unintended effects of the project, and how these possible challenges will be addressed.

The discussion should indicate in quantitative terms, to the extent possible, what the project will produce through its planned activities and budget.

Under Construction

SECTION III

Expected results of the project

B. Project activities and work plan

This section should describe how each immediate project objective will be carried out in terms of planned activities, their timing and duration, and who will be responsible for each activity. This can be summarized in a simple table.

Under Construction

SECTION III

Expected results of the project

C. Project beneficiaries

This section describes who and how many people are expected to benefit from the project, both directly and indirectly. It should also discuss how intended beneficiaries have been involved in project design, and their expected role in project implementation and evaluation.

Under Construction

SECTION III

Expected results of the project

D. Implementing agent management of project

This section should describe:

- a. Who will be responsible for planning and management of project operations as well as the roles of other bodies and organizations associated with the project?
- b. What arrangements will be established to ensure that there will be effective coordination with other relevant programmes and activities?

This section should also discuss whether project operations are expected to continue, or expand to other areas or sectors, once the current phase of assistance is completed. This could include plans for introducing self-financing provisions to ensure continued viability of operations on project completion.

Under Construction

SECTION IV

Project Implementation and management

This section should discuss proposed mechanisms and procedures for monitoring of project operations to ensure that activities occur as planned, that they remain directed towards stated objectives, and that appropriate corrective action is taken if required.

Specifically, the discussion should indicate who will be responsible for preparing periodic project progress and final technical reports and for the accounting of expenditures, to be submitted to the UN Voluntary Fund on Disability. All projects need to be evaluated on completion. This section should also identify the party who will be responsible for this task, as well as how intended beneficiaries will be involved.

Under Construction

SECTION V

Project Budget

The budget for the UN Voluntary Fund should be prepared in U.S. dollars. An additional budget should be prepared to describe the budget components to be financed by Government, Project Implementing Agent and other parties participating in the project.

A description of the budget line items (with internal classification codes) are:

10.00 Project Personnel:

The resources of the Voluntary Fund can finance project personnel specialized needed to plan and carry out the project or specialized consultant services required to accomplish a specific project objective. Salaries and consultancy fees should be reflective of local prevailing conditions. The UN Voluntary Fund does not prioritize projects with high personnel costs.

11.01 International Experts: for international personnel working for more than six months on the project. Job description/Terms of reference should be included in project document.

11.50 Consultants: for personnel working for less than six months on the project. Job description/Terms of Reference should be included in project document.

CONCLUSION

Client first Name, We believe that the worthy causes undertaken by "MY VOICE VIBRATION RESEARCH FORUM" will continue doing a great deal of good for many people in need.
